Dr. Fernanda Wanderley (Bolivian Catholic University, La Paz, Bolivia)

Conveners

Dr. Tina Beuchelt (University of Bonn, Center for Development Research ZEF)

Jun-Prof. Lisa Biber-Freudenberger (University of Bonn, Center for Development Research ZEF)

Dr. Sandra Gilgan (University of Bonn, Bonn Research Alliance BORA)

Prof. Kristina Großmann (University of Bonn, Institute of Oriental and Asian Studies)

Dr. Jonas Hein (German Institute of Development and Sustainability IDOS, Bonn)

Dr. Dennis Lucy Avilés Irahola (University of Bonn, Center for Development Research ZEF)

Sustainability science (Nachhaltigkeitsforschung) aims to provide solutions to the multiple socio-ecological crises by working beyond 'modern' disciplinary boundaries. At this Round Table, we will first discuss how sustainability science is conceptualized and organized in Bolivia, Ghana, Indonesia, and Germany. Second, we will discuss how we can interlink the interdisciplinary field of sustainability science on a global scale.

Please register by 8th July with Nora Utecht (s86nutec@uni-bonn.de)

The Round Table is funded by the TRA Individuals, Institutions and Societies (University of Bonn) as part of the Excellence Strategy of the federal and state governments and by the German Committee Future Earth.
